GOOD TO KNOW

River crossings follow the herds' own schedule, not a fixed calendar — no operator can guarantee a crossing on a specific day. We position you at the highest-probability locations based on real-time reports from the guide network. Book 6–9 months ahead; this is our most requested window.

This itinerary is illustrative and subject to change based on season, road conditions, and lodge availability. Pricing shown is a starting-from estimate per person, based on double occupancy; request a firm quote with your exact travel dates before booking.
